

Canteen Report for P and C

It has been a busy year for the Canteen with 110 volunteers performing a great job.

The use of texting to remind volunteers each week and the list available for emailing if changes to the roster were required was successful. There was a profit of \$29,016.

There has been a \$10,000 donation in term 2 and we will have a further \$15,000 for term 4. (The initial \$10,000 in term 1 was from the previous year). Spending in the canteen was for a new compressor door and renovations in splashbacks and new bench surfaces. The painting has been started but needs a little further touch up. Our wish list is now much smaller with a new extractor and thermomix present.

The present committee is remaining for the following year but we are looking to train someone for the rostering and volunteer coordination for the future.

The audit done this year highlighted our need for extra care in counting at the end of the day and this has improved this term with reconciliation of banking closer to the mark.

Thanks to the wonderful job that the Canteen Coordinators do to organize the volunteers thru their shifts. It is a pleasure to work on such a well organised and efficient team .
